HOW TO MAKE MR

- Python Packaging with Codex CLI
- Open the Server from Localhost(127.0.0.1) with Understanding the OSI Gateway Mechanism
- Deep Learning By PyTorch
- Set the Argument And Execute the Command

```
82
83 def on_key_press(self, symbol,
84     """Delegate key press"""
85     if self.context_index == -
86         if symbol == key.UP and
87             self.menu_labels[s
88                 self.active_index
89                 self.mags_dt = sel
90     elif symbol == key.DOWN
91         self.menu_labels[s
92             self.active_index
93             self.mags_dt = sel
94     elif symbol == key.ENTE
95         if self.active_inde
96             pygame.app.exit
97     else:
98         self.context in
99     elif symbol == key.ESCA
100         if self.context_in
101             pygame.app.exit
102     else:
103         self.context in
104     elif self.context_index ==
105         if symbol == key.ESCAPE
106             self.context_index
107     else:
108         self.cur_game.on ke
109     else:
110         if symbol == key.ESCAPE
111             self.context_index
```
